

BUOY

DESIGNED BY MARGUS TRIIBMANN

Buoy was designed with a wish to create a portable and durable outdoor luminaire, which at the same time would look attractive indoors. Buoy can be hung on the wall, placed in a garden, or fixed to a pole. It is designed to resist different conditions of use. The light switch of Buoy is located on its body, making it easy to switch on and off. It is possible to 'dress' up Buoy in handmade net, giving the lighting even more of a marine look. To have Buoy off from the ground, there is a version which comes with a stand with three adjustable heights.

Product code	LO-BO-01	LO-BO-02	LO-BO-03	LO-BO-04
Socket	E27	E27	E27	E27
IP rating*	66	66	66	66
Plug type	Schuko	Schuko	Schuko	Schuko
Net	No	Yes	No	Yes
Stand	No	No	Yes	Yes
Weight	3	4	4,5	7
